

Policy 3-3-1. Public Access Computers

Adopted 1/25/2018

Josephine Community Library District (JCLD) makes computers and selected software available for public use, charging for printing only. The computers are intended for personal and not for commercial uses. It is not possible to save items on the hard drive; patrons wishing to preserve files must save them on their own device. JCLD is not responsible for disclosure or erasure of any files on the public access computers.
