

### Policy 3-3-5. Eligibility of Use for Emergency Connectivity Fund Order

*Adopted 7/21/2021*

Josephine Community Library District participates in the Emergency Connectivity Fund (ECF) which is to meet connectivity and device needs during the pandemic for disconnected library users. The program provides reimbursement or discount for eligible equipment and services. JCLD will assure that ECF funded equipment and services are only for users with unmet needs.

Eligible end users for this program are library patrons without sufficient Internet access or connected devices to engage in remote learning. Eligible locations allowed are predominantly homes of end users. ECF funded devices and access are to be used for the provision of library services.

Documentation of end user need must be verified by JCLD. End-users must sign and return a statement that they do not have access to equipment or services without the ECF provided equipment and/or services. The user will be provided with a copy of this “Eligibility of Use For Emergency Connect Fund Order.”
