## FANTASY: DIY UNICORN SLIME

Learn how to make slime that is a magical rainbow of colors. This is a great sensory activity for all ages.

**For visual instructions:** [kimspreddiy.com](http://kimspreddiy.com)'s diy unicorn slime

### Supplies:

- 1 mason jar or plastic container for the finished product
- ½ cup white glue
- ½ cup shaving cream
- ½ cup foaming hand wash
- ½ tsp cornstarch
- ½ tsp body lotion
- ½ tsp baking soda
- ¾ tbsp contact solution
- 5 small mixing bowls
- Food coloring in five different colors
- Glitter (optional)

### Instructions:

1. Pour 1/2 cup white glue in a bowl.
2. Add 1/2 cup shaving cream and mix together
3. Add 1/2 cup of foaming hand wash – mix well.
4. Add in 1/2 tsp of cornstarch and about 1/2 tsp of body lotion.
5. Add a couple drops of food coloring and add glitter.
6. Next add 1/2 tsp of baking soda. (Add more while kneading if you need to. Baking soda will thicken the slime up.)
7. Now slowly add in contact solution until it forms slime – it will start to pull away from the side of the bowl.
8. Take slime out of bowl and work it with your hands.
9. Set to the side.
10. Repeat the process for the next color. You will have 5 colors total.
11. Swirl the colors together for a rainbow unicorn slime.
12. Store in a mason jar or plastic container.
